Re: *Seattle House of Prayer New Chapel Purchase Status Report*

Dear Brothers and Sisters in Christ:

Hallelujah! Greetings in the name of our Lord Jesus Christ! May His abundant grace and blessings be with you all!

On behalf of the Seattle House of Prayer, we would like to inform you of the status of their recent intended purchase of a property to be converted as their future chapel. After a further investigation on the property and land during escrow was conducted, the investigation data showed that the property is a wet land. Therefore, the congregation of the Seattle House of Prayer voted against the purchase of this property during the recent congregational meeting. However, they will continue to search for another property more suitable for the Seattle House of Prayer's needs.

During this period, the congregation of the Seattle House of Prayer was very thankful of the received prayers and unconditional financial support from the churches and members of US and Canada. They would like to express their sincere appreciation of your love and prayers.

The Seattle House of Prayer is sending out notices to notify those churches and individual members on how they are going to handle their offerings. Please continue to keep their searching of the new chapel in your prayers. Should you have any questions concerning your contribution, please feel free to contact Brother Richard Chen at rlchen@hotmail.com, the chairperson of Seattle House of Prayer, directly.

May Lord continue to bless the ministry of US churches!

Yours in Christ,

Shawn Chou
